

	terms	definitions	examples	pronunciation
	Unit 7 IT support (60)			
1	anti-static wrist strap (phr)	a device that helps to prevent the build-up of static electricity near sensitive electronics	An anti-static wrist strap may also be called an electrostatic discharge (ESD) wrist strap.	/'ænti-'stætɪk rɪst stræp/
2	attachment (n)	is a file sent with an e-mail message	I'll email my report to you as an attachment	/ə'tætʃmənt/
3	battery mode (phr)	changes certain settings to conserve battery power until you can recharge your phone	If Battery saver mode is off, you'll be prompted to turn on Battery saver mode when the battery reaches low levels	/'bætəri məʊd/
4	bolt (n)	a metal pin or bar, in particular	The bolt was ripped off by the force of the impact	/bəʊlt/
5	cable tester (phr)	is a device that is used to test the strength and connectivity of a particular type of cable or other wired assemblies	A cable tester can test whether a cable or wire is set up properly, connected correctly, and the communication strength between the source and destination	/'keɪbl 'tɛstə/
6	charge (v)	store electrical energy in (a battery or battery-operated device)	It takes several hours for my laptop's batteries to charge	/tʃɑ:dʒ/
7	charger (n)	a device for charging a battery or battery-powered equipment	I lost the charger to my phone	/tʃɑ:dʒə/
8	check (v)	examine (something) in order to determine its accuracy, quality, or condition, or to detect the presence of something	Patricia has checked the reports and can vouch for the accuracy of the information	/tʃek/
9	computer fan (phr)	name of the air cooling system - the combination of a fan with a radiator installed on electronic components of a computer with increased heat	computer fan design efficiently dissipates heat	/kəm'pjʊ:tə fæn/
10	current (n)	the passage of electricity through a wire	Switch off the electric current before changing the bulb	/'kʌrənt/
11	defragment (v)	to make a computer organize its files and freespace so that it can operate more quickly	It allows you to defragment a single file, several files or an entire folde	/.di:fræg'ment/

12	desktop computer (phr)	a computer that fits on a desk but that is not easily moved from place to place	First decide whether you need a desktop computer , or whether a laptop or notebook would be more suitable	/ˈdɛsktɒp kəmˈpjʊ:tə/
13	diagnostic (adj)	used for discovering the characteristics or cause of a problem in a system or machine	A full diagnostic would require us to take our systems off-line	/ˌdaɪ.əgˈnɒs.tɪk/
14	disconnect (v)	to stop being connected to the internet	Once he fires the engine, I can always disconnect him if I have to	/ˌdɪs.kəˈnekt/
15	disk space (n)	the maximum amount of data a disc or drive is capable holding	All types of media capable of storing information have a disk space , including a CD, DVD, floppy disk, hard drive, memory stick/card, and USB thumb drive	/dɪsk speɪs/
16	electrical (adj)	using electricity for power, involved in the production or movement of electricity, or related in some way to electricity	That looks more electrical than mechanical.	/ɪˈlekt.rɪ.kəl/
17	electronic (adj)	is any data or information transmitted over a network or the Internet	Even with a load of electronic gadgetry, you still need some musical ability to write a successful song	/ˌel.ekˈtrɒn.ɪk/
18	electrostatic discharge (phr)	the transfer of electrical charge between any two objects	The best method of preventing electrostatic discharge is to use an electrostatic discharge wrist strap, grounding mat, or grounding workbench	/ɪˌlekt.rəʊˈstætɪk dɪsˈtʃɑːdʒ/
19	error (n)	a mistake, esp. in a way that can be discovered as wrong, or the making of such mistakes	This error means that a module cannot be found	/ˈer.ər/
20	fault diagnosis (phr)	is checking the electronic system for any errors, problems and malfunctions	fault diagnosis allows you to assess the technical condition	/fɔːlt ˌdaɪəgˈnəʊsɪs/
21	find (v)	to discover where something	I can't find the file I created yesterday	/faɪnd/
22	fix (v)	to repair something	They couldn't fix my old computer, so I bought a new one	/fɪks/

23	hard disk speed (phr)	the rate at which hard disk is able to operate	Most of you already know that a fragmented registry slows down computer speed (same as hard disks)	/hɑ:d dɪsk spi:d/
24	hex key (phr)	a tool used to drive bolts and screws with hexagonal sockets in their heads	I need a hex key to open the server chassis	/hɛks ki:/
25	hexagonal socket (phr)	is a socket designed to fit the head of a hexagonal fastener such as a nut or bolt	He had forgotten to plug the television into the mains hexagonal socket	/hɛk'sægənl 'sɒkɪt/
26	insert (v)	to put something inside something else	Let me just insert lens in microscope	/ɪn'sɜ:t/
27	insertion/extraction clipper (phr)	used for inserting and removing fibre connectors in tight spaces	An IC extractor is a tool for safely and quickly removing integrated circuits (ICs) from their sockets	/ɪn'sɜ:ʃən/ɪks'trækfən 'klɪpə/
28	insulation (n)	the act of covering something to stop heat, sound, or electricity from escaping or entering	This insulation shall be strong enough to resist impacts and vibration	/,ɪn.sjə'leɪ.ʃən/
29	multimeter (n)	a device that measures electronic properties and is used to find electrical problems in batteries, power supplies, and wiring systems	A second multimeter in series with the discharge gap was used to indicate the current	/'mʌl.tɪ.mi.tər/
30	nut (n)	a small piece of metal with a hole in it through which you put a bolt	Nuts and bolts are used to hold pieces of machinery together	/nʌt/
31	pliers (n)	a small tool with two handles for holding or pulling small things like nails, or for cutting wire	Pass me that pair of pliers , please	/'plai.əz/
32	plug in (phr v)	to become connected to a piece of electrical equipment or to the main electricity supply	The keyboard plugs in at the back of the computer	/'plʌg.ɪn/
33	print out (phr v)	produce a printed material on a page or set of pages by a computer printer	At this point, you may want to print out the page for your reference	/prɪnt aʊt/
34	recover (v)	to get something back that was lost or almost destroyed	We had to bring in a computer expert to help us recover the data from the hard drive.	/rɪ'kʌvər/

35	recycle bin (phr)	a computer program where you store files or folders that you want to delete before deleting them permanently	Deletes the selected item(s) into the recycle bin	/,ri:'saɪkl bɪn/
36	reinstall (v)	an act of reinstalling something, especially software	The time has come to reinstall Windows!	/,ri:ɪn'stɔ:l/
37	resend (v)	to send a text message, an email, etc. Again	If you did not get an email, try logging in again: you will see an error message with a link to resend the email	/,ri:'send/
38	resistance (n)	is the degree to which a substance prevents the flow of electricity through it	ITC, stereo, time and resistance	/rɪ'zɪs.təns/
39	restart (v)	to begin or start something again after it has stopped for a period of time	Computer, restart all shield generator subsystems	/,ri:'stɑ:t/
40	reversible ratchet driver (phr)	a driver with a ratchet (so the blade turns in only one direction) and a spiral in the handle (so the blade rotates) with downward pressure on the handle	reversible ratchet driver used for easy driving of screws and nuts	/rɪ'vɜ:səbl 'rætʃɪt 'draɪvə/
41	screw (n)	is a small metal post with threads going down around it	If I'm being honest, I've got one screw left	/skru:/
42	screwdriver (phr)	a tool that you use for turning screws	nd I just need a screwdriver to get this thing off	/'skru:,draɪvə/
43	search box (phr)	a space on a computer screen or web page where you type a word or piece of information that you want to find	Should you are looking for something special, so you can also use the search box in the top menu	/'sɜ:tʃ ,bɒks/
44	switch off (phr v)	to make a machine or light stop working by moving a button	But in 10 minutes, I'd like you to switch off the network system	/swɪtʃ ɒf/
45	switch on (phr v)	to make a machine or piece of equipment start working by pressing a switch	Please switch on JavaScript or change the browser to the newer version	/swɪtʃ ɒn/
46	three-pronged (adj)	having the stated number of prongs	The activities of the Centre are three-pronged	/θri:-prɒŋd/
47	tight (adj, adv)	describes a cable connection that is in correctly and firmly	Yes, it's nice and tight	/taɪt/
48	tightening a screw (phr)	rotation of nuts to create and increase the strength of the connection parts	And then tightening a screw , which will hold it in place	/'taɪtnɪŋ ə skru:/

49	tone (n)	an electronic sound that you hear on a phone line	Please leave your message after the tone	/təʊn/
50	turn on (phr v)	put into action	We can turn on the game if you want	/'tɜːn.ɒn/
51	tweezers (n)	a small tool consisting of two thin pieces of metal joined at one end; you use tweezers for picking up small things	I need you to go find some pliers or tweezers	/'twiːzəz/
52	undelete (v)	is a software utility or command that restores a deleted file to a file system	Even when undelete has become impossible, the data, until it has been overwritten, can be read by software that reads disk sectors directly	/ʌn.dɪ'li:t/
53	uninstall (v)	the process of taking a program files off of a computer hard drive	To uninstall just do like any other software on Windows Mobile	/,ʌn.ɪn'stɔːl/
54	unplugged (adj, adv)	one that is disconnected from the network	The AC adapter has been unplugged , switching to battery mode	/,ʌn'plʌgd/
55	version (n)	is a way to categorize the unique states of computer software as it is developed and released	That version included 32767 possible configurations	/'vɜːʃən/
56	virus (n)	a computer program or part of a computer program that can make copies of itself and is intended to prevent the computer from working normally	Software I can hack to build a virus	/'vaɪə.rəs/
57	voltage (n)	the force of an electric current, measured in volts	The rated voltage of cables should be determined and stated by the manufacturer	/'vɒl.tɪdʒ/
58	wire cutter/stripper (phr)	tool used for cutting wire or removing insulation	Could be the work of pliers or wire cutters	/'waɪə 'kʌtə/ /'stri:p.ə/
59	** AC (alternating current)	an electrical current that regularly changes the direction in which it moves	But if alternating current is running through the wires every second of every day and I turn on a switch sending it here instead of there, how is that lighting a fire?	/'ɔːltəneɪtɪŋ 'kʌrənt/

60	** DC (direct current)	electrical current that moves in one direction only	Are you using alternate or direct current to charge it?	/daɪ'rekt 'kʌrənt/
----	-------------------------------	---	--	--------------------
